

AIR QUALITY SYSTEMS – Manufacturer's Representatives

Providing solutions for Industrial, Municipal and Commercial Air Quality issues.

APPLICATION AND PROCESS	EQUIPMENT & SERVICE	COMPANY AND WEBSITE
<p><u>CORROSIVE ODORS, TOXIC PROCESS FUMES AND SUB-MICRON PARTICULATES</u> Control of emissions and odors from waste water treatment, chemical storage, process tanks, pharmaceutical, laboratory hoods, Applications particulate removal, ventilation systems, odor control, foundry, metal finishing, .</p>	<p>Packed bed wet scrubbers <i>FRP fans for corrosion service</i> Mini-scrubbers, Venturi Scrubbers IWS ionizing wet scrubbers Tellerette® packing</p>	<p>Ceilcote Air Pollution Control http://www.ceilcoteapc.com</p>
<p><u>ODOR CONTROL AND FUME COVERS</u> Bio-Filters, H2S adsorption systems, carbon adsorption, and chemical odor control for low capital cost and low energy solutions. Waste water treatment plants, wet wells, pump stations, lagoons, waste handling and treatment plants. Recycling operations and sludge processing.</p>	<p>Bio Filters, Bio Reactors H2S adsorption media. Better than iron sponge and others. Carbon odor adsorbers, canisters.</p>	<p>BioCube, Inc. http://www.biocube.com ADI http://www.adi.ca Carbtrol http://www.carbtrol.com</p>
<p><u>FUME COLLECTION AND CONTAINMENT</u> Flat Aluminum covers and FRP Dome covers with unique patented design offers easy access and fast installation. Structural support is integrated into the cover. Covers can be walked on. <u>Membrane covers</u> Floating, suspended, modular and structural covers with full access. Some walk on.</p>	<p>Low capital cost, fast (2 week installation) of chemical odor control systems. Rectangular and circular covers Ventilated covers or for collection of Biogas.</p>	<p>NuTech Environmental www.nutechenvironmental.com RPS Engineering http://www.coverit.net GTI http://www.gti.ca</p>
<p><u>CORROSION RESISTANT DUCT, TANKS, FITTINGS, AND HOODS</u> For fume collection and storage of highly corrosive gases and liquids.</p>	<p>Fiberglass reinforced plastic (FRP) Round and rectangular ducting, hoods, tanks. .</p>	<p>Fiber-Tech Engineering, Inc. http://www.fibertecheng.com</p>
<p><u>THERMAL OXIDIZER CONTROL</u> For a wide variety of industrial applications, printing, coating, ethanol mfg, semi-conductor, ovens, chemicals, wood products, pharmaceuticals, etc.</p>	<p>VRTO with fewest moving parts in the industry</p>	<p>Eisenmann http://www.eisenmann.com</p>
<p><u>DUST COLLECTION AND LARGE INDUSTRIAL AIR FILTRATION SYSTEMS</u> For manufacturing, cement, chemical incineration, boiler, wood products, pharmaceutical, mining, power industry , rock and wood products, ceramics, food processing and many others. For collection of dry or wettable, sinkable and/or combustible contaminants. Applications include wet and dry materials</p>	<p>Cartridge collectors, Fabric filter baghouses, air/gas heat exchangers, venturi scrubbers Wet dust collectors, HEPA filters, downdraft, work tables, cells, booths, cyclones, ceiling hung, roll a round,</p>	<p>Uni-Wash/Polaris Industrial Ventilation Group http://www.uniwashinc.com Dustex http://www.dustex.com</p>
<p><u>INDOOR AIR POLLUTION</u> Smoke, mist, dust & gaseous fume removal, odor control Oil and coolant mist. Flex extractor arms. Welding, laser and plasma cutting smoke Sanding and grinding</p>	<p>SMOKEMASTER® MIRACLE AIR™ In duct -ceiling mount Machine mount Source capture Roll around and portable</p>	<p>Air Quality Engineering http://www.air-quality-eng.com</p>
<p><u>OTHER</u> EasyLift pre-packaged lift stations. Chicago/Yeomans Pumps from 5-50 HP. Simplex or duplex. Puraflo On Site residential and commercial secondary waste water treatment systems</p>	<p>Basins to 8 ft. diameter Flows to 1 MGD. Up to 4" solids handling Peat modules for easy to maintain systems</p>	<p>http://www.yccpump.com http://www.BNM-US.com</p>
